## Experience

### Infosys

Digital Specialist Engineer

Pune, India

Aug 2019 - Present

- Working on a platform where people can meet, collaborate and attend events - MERIDIAN.
- Developed a web-app where new registration forms for events can be created in 5 minutes using an intuitive configurator which included features like bulk registrations, mass mailer, screening and reports creation.
- Part of the team which helped conduct big virtual events like MARS AI Festival and Australian Open.
- Worked on a platform where people can create and register for sessions, mark attendance, download reports etc. - SCHEDULO.

## Achievements

- INSTA Award:** I was awarded this for my stellar contribution towards development of Meridian Registration and Schedulo.
- HackWithInfy:** Selected in top 93 out of almost 50,000 participants for the Hackathon conducted by Infosys in Pune at college level in August 2018. During the competition, our team was among the top 6 teams for final presentation.

## Personal Projects

- Multiplayer Chess:** A text-based chess made in C++, where two players can challenge each other to a game of chess. Contains all the basic rules required to play the game.
- License Plate Recognition System:** A project which identifies license plate number from the given image using Python and OpenCV.

## Publications

- Arora, Jyoti & Tushir, Meena & **Kashyap, Rahul**. (2018). Improving Semi-Supervised Classification using Clustering. *ICST Transactions on Scalable Information Systems*. 7. 159793. 10.4108/eai.29-7-2019.159793.

## Technical Skills

**Languages:** JavaScript, TypeScript, Node.js, HTML, CSS3, SCSS, Bootstrap, Python, C++  
**Frameworks:** Angular, Angular Material, Express.js  
**Database:** Postgres, MongoDB  
**Technologies:** GIT, DS/Algorithms

## Education
